---

## SUMMARY

I am an undergraduate student in Informatics Engineering with strong experience in team-based project management, website and mobile development, as well as UI/UX design. I have successfully delivered various digital projects, both individually and collaboratively, often ahead of schedule. Passionate about creative design and impactful digital solutions, I am eager to grow further as a developer while sharpening my skills in design and development.

---

## EXPERIENCE

**PT. Rakamin Kolektif Madani**

**Sep 2024 – Dec 2024**

**Full Stack Developer**

- Developed web applications using Laravel (PHP) for backend and Java frameworks for scalable and efficient performance.
  - Designed and managed databases using MySQL, ensuring optimized data storage and retrieval.
  - Integrated Data Science and Machine Learning models to process and analyze data for actionable insights.
- 

## EDUCATION

**Undergraduate in Informatics Engineering**

**Jul 2022 – Jul 2026**

Global Institute of Technology & Business

- Practical experience in front-end and back-end development using modern frameworks
  - Relevant coursework in UI/UX Design, Mobile Application Development, and Web-Based Programming
- 

## PROJECTS

**JedaPus – Employee Leave Request Application**

**Jul 2025**

Global Institute of Technology & Business

- Developed a cross-platform leave request application using Flutter for mobile interface
- Integrated Supabase for real-time backend services, including database management

**Lestari - Waste Bank Web Platform**

**Dec 2024**

PT. Rakamin Kolektif Madani

- Developed a web-based waste bank management system using HTML, PHP, Java, and Tailwind CSS
  - Designed responsive and accessible user interfaces with a focus on UI/UX principle
-
