Summary

I am an undergraduate student in Informatics Engineering with strong experience in team-based project management, website and mobile development, as well as UI/UX design. I have successfully delivered various digital projects, both individually and collaboratively, often ahead of schedule. Passionate about creative design and impactful digital solutions, I am eager to grow further as a developer while sharpening my skills in design and development.

Experience

Independent Study (MSIB)

PT. Rakamin Kolektif Madani (Sep 2024 – Dec 2024) .
